

# COMPLEMENTS

At Nosse, every detail is an opportunity to tell a story. The Complements range was designed to celebrate individuality, allowing everyone to express their identity and create a truly unique collection. Versatile and expressive, the pieces can be used on their own or freely combined, adding character and authenticity to every table.

## OYSTER SHELL

Inspired by the organic and elegant shape of the oyster, this serving plate is a celebration of the hidden beauty of the ocean. Just as the oyster holds within itself the mystery of a pearl, this piece invites you to discover the sophistication born from the fusion of simplicity and refinement. It is a piece that balances delicacy and presence, transforming any moment at the table into a unique sensory experience.

NEW PIECE

## SEA URCHIN CONSOMMÉ

Inspired by the shape and texture of a sea urchin, it is a tribute to the ocean. The exterior, delicately textured with pointed details, evokes the protection and complexity of sea urchins, while the smooth, elegant interior cradles the consommé with grace and sophistication. Every detail has been designed to create a culinary experience that blends the robustness of marine nature with the elegance of haute cuisine.

## CORAL CANDLE HOLDER

Coral reefs, essential to the planet's balance, shelter 25% of marine species in less than 1% of the ocean floor and play a crucial role in regulating atmospheric carbon dioxide (CO<sub>2</sub>). Inspired by the beauty and function of corals, our candle holders capture the magic of the deep ocean, creating a special atmosphere.
