

# SEA

Inspired by the organic perfection of sea urchins, this design captures the mysterious essence of the deep ocean, and the delicate balance of softness and strength that defines these unique creatures.

The captivating textures, alternating between dotted patterns and sculpted surfaces, have been reimagined to create a design that engages both touch and sight, inviting interaction and awakening a unique sensory experience.

The Sea Collection, in Matte Ivory and Ocean Marble was been awarded the German Design Awards 2026.
